PROFILE

I am a passionate BCA graduate with a strong foundation in web development. I specialize in creating dynamic and scalable web applications using HTML, CSS, JavaScript, and Python. Proficient in frameworks like Django and Flask, and experienced with SQLAlchemy for database management, I excel in building robust solutions. Additionally, I have substantial experience in developing RESTful APIs and integrating third-party libraries to enhance functionality. Familiar with modern software development methodologies and proficient in version control systems such as Git and GitHub, I am eager to leverage my academic background and hands-on experience to contribute effectively as a Web Developer within a collaborative team environment.

WORK EXPERIENCE

Freelancer worker

Motivated junior web developer with strong coding skills, internship experience in frontend development (HTML, CSS), and a passion for creating responsive, user-friendly web interfaces.
